

Product sheet

Delegated Regulation (EU) n° 626/2011

Supplier or brand name	SODILOG SAS
Model reference	FCPR4700-A
Internal model reference(s)	FCPR4700-A
External model reference	-
Interior sound power levels (cooling mode)	64dB
Exterior sound power levels (cooling mode)	-
Name of refrigerant	R290
GWP of the cooling agent	3
<p>Refrigerant leaks exacerbate climate change. In the event of a leak, the impact on global warming will be all the more limited if the refrigerant's global warming potential (GWP) is low. This appliance uses a refrigerant with a GWP of 3. In other words, if 1 kg of this refrigerant is released into the atmosphere, its impact on global warming will be 3 times greater than that of 1 kg of CO₂, over a period of 100 years. Never attempt to work on the refrigeration circuit or dismantle parts yourself, and always contact a professional.</p>	
Cooling mode	
Energy efficiency ratio (EER)	2.61
Energy efficiency class	A
Hourly electricity consumption	Energy consumption of 1.696 kWh for 60 minutes, determined on the basis of results obtained under standardised test conditions. Actual energy consumption depends on conditions of use and the location of the appliance.
Cooling capacity	4.5kW
