Lire le manuel d'instructions

Wait at least 24 hours before vacuuming an oven or a fireplace in order to be sure that the fire has gone out and the ash has cooled down. Only for cold ash, see the operating instructions!

⚠ Important!

When using the appliance, a few safety precautions must be observed to avoid injuries and damage. Please read the complete operating instructions with due care. Keep this manual in a safe place, so that the information is available at all times. If you give the appliance to any other person, hand over these operating instructions as well.

We cannot accept any liability for damage or accidents which arise due to a failure to follow these instructions and the safety instructions.

1. Safety regulations

CAUTION

This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

- Important: Read the operating instructions before assembling and using the appliance for the first time.
- Check that the mains voltage is the same as the mains voltage specified on the rating plate.
- Pull out the power plug in the following circumstances: Whenever the appliance is not in use, before opening the appliance and before all cleaning and maintenance work.
- Never clean the appliance with solvents.
- Never pull the plug out of the socket by pulling the cable.
- Never leave the appliance unattended when operational.
- Keep away from children.

- Take care to ensure that the power cable does not get damaged by being run over, crushed, pulled or suchlike.
- Do not use the machine if the power cable is in a less than perfect condition.
- Never vacuum the following: Burning matches, smoldering ash and cigarette butts, combustible, caustic, inflammable or explosive substances, vapour or liquids.
- This appliance is not suitable for vacuuming dust which can be harmful to health.
- Store the appliance in a dry indoor location.
- Never use the appliance if it is damaged.
- Only allow the appliance to be serviced by an authorized customer service center.
- Only use the appliance to carry out work for which has been designed.
- Use only genuine accessories and spare parts.
- The guidelines in the operating instructions must be observed. The safety and accident-prevention regulations from the lawgiver are also to be observed.
- **Important!** Hazardous material must not be extracted with the ash filter.
- Do not extract ashes from prohibited fuels.
- Do not use the ash filter to extract hot, glowing or inflammable objects (e.g. charcoal, cigarettes ...).

- **Important!** The ash vacuum cleaner is not suitable for vacuuming soot or fine dust.
- **Important!** The extracted material must not exceed a temperature of 40°C.
- **Important!** If this temperature of the extracted material exceeds 40°C, there is a risk of fire.
- **Important!** If the permissible temperature is exceeded, the extractor, the ash filter and the hoses could be damaged.
- Before beginning extraction, please wait until the material is completely cooled off. Hot ashes should not be purged with water.
- If the appliance heats up, switch it off, unplug the mains plug. Let the appliance cool down, open the appliance to remove the filter and clean the appliance.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
- Always empty and clean the tank in order to prevent the accumulation of materials which could present a fire hazard.

2. Area of application

- Substance to be vacuumed - cold ashes from fireplaces, wood / coal stoves, ashtrays, grill
- Empty and clean vacuum cleaner before and after vacuuming to avoid the collection of materials that could pose a fire hazard in the vacuum cleaner

Restriction of use

- do not use for the separation of health-hazardous dusts (dust classes L, M, H)
- vacuum only ashes from admissible fuels
- do not vacuum any hot, burning or glowing objects
- do not vacuum any objects that are hotter than $> 40^{\circ} \text{C}$
- do not vacuum any flammable substances

3. Layout and items supplied

- 1 Handle
- 2 On/Off switch
- 3 Appliance head
- 4 Blow connector
- 5 Locking hook
- 6 Tank
- 7 Suction hose connector
- 8 Suction tube
- 9 Flexible hose
- 10 Filter cartridge

4. Intended use

The ash vacuum cleaner is suitable for vacuuming cold ash or cold material residues from fireplaces, charcoal ovens, ash-trays or barbecues.

The machine is to be used only for its prescribed purpose. Any other use is deemed to be a case of misuse. The user/operator - not the manufacturer - will be liable for any damage or injuries caused as a result thereof.

Please note that our appliance has not been designed for use in commercial, trade or industrial applications. Our warranty will be voided if the appliance is used in commercial, trade or industrial businesses or for equivalent purposes.

5. Technical data

Mains voltage: 220V-240V~ 50 /60Hz

Model	Power input:	Tank volume:	Weight:
FVC12L	600W	12 L	2.55 kgs

6. Before starting the appliance

Important!

- Before you connect the appliance to the mains supply make sure that the data on the rating plate are identical to the mains data.
- The appliance may only be connected to a shockproof socket.

6.1 Assembling the appliance

● Fitting the appliance head (Fig. 2)

The appliance head (3) is fastened to the container (6) by the locking hook (5). To remove the appliance head (3), open the locking hook (5) and remove the appliance head (3). When fitting the appliance head (3), make sure that the locking hook (5) locks into place correctly.

- Plug the vacuum tube (8) onto the end of the suction hose (9).(Fig.5)
- Fit the suction hose (9) onto the connection (7) and turn until securely attached.(Fig.3-4)

6.2 Fitting the filter

Important!

Never use the ash vacuum without the filter!

Always ensure that the filters are perfectly secure.

Assembly / Dismantling of the filter (Fig. 6)

Assemble the filters according to Fig.6, Remove the filters in the reverse order.

7. Operation

7.1 ON/OFF switch (Fig. 1)

Press the ON/OFF switch (2) to switch the equipment ON and OFF.

7.2 Vacuuming (Fig. 3-4)

Connect the suction hose (9) to the suction hose connector (7)

Important!

The ash vacuum cleaner is not suitable for the vacuuming of combustible materials!

7.3 Blowing (Fig. 7-8)

Connect the suction hose (9) to the blow connector (4).

8. Cleaning, maintenance and ordering of spare parts

Important!

Always pull out the mains power plug before starting any cleaning work.

8.1 Cleaning

Keep all safety devices, air vents and the motor housing free of dirt and dust as far

as possible.

We recommend that you clean the appliance immediately after you use it.

8.2 Cleaning the appliance head (3)

Clean the appliance regularly with a damp cloth and some soft soap. Do not use cleaning agents or solvents; these may be aggressive to the plastic parts in the appliance.

8.3 Cleaning the container (6)

The container can be cleaned with a damp cloth and some soft soap or under running water, depending on the amount of dirt.

8.4 Cleaning the filter (10)

Clean the filter cartridge (10) by tapping and brushing or by blowing out with compressed air at low pressure.

8.5 Servicing

At regular intervals and before each use, check that the filters in the ash vacuum are securely fitted.

8.6. Ordering spare parts

Please provide the following information on all orders for spare parts:

- Model/type of the appliance
- Part number of the required spare part

9. Disposal and recycling

The appliance is supplied in packaging to prevent its being damaged in transit. This packaging is raw material and can therefore be reused or can be returned to the raw material system. The appliance and its accessories are made of various types of material, such as metal and plastic. Defective components must be disposed of as special waste. Ask your dealer or your local council.

Correct Disposal of this product

This marking indicates that this product should not be disposed with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environmental safe recycling.

10. WARRANTY

WARRANTY

The manufacturer guarantees the product against defects in material and workmanship for a period of 2 years from the date of the original purchase. The warranty only applies if the product is for household use. The warranty does not cover breakdowns due to normal wear and tear.

The manufacturer agrees to replace parts identified as defective by the designated distributor. The manufacturer does not accept responsibility for the replacement of the machine, in whole or in part, and/or ensuing damage.

The warranty does not cover breakdowns due to:

- insufficient maintenance.
- abnormal assembly, adjustment or operations of the product.
- parts subject to normal wear and tear.

The warranty does not extend to:

- shipping and packaging costs.
- using the tool for a purpose other than that for which it was designed.
- the use and maintenance of the machine done in a manner not described in the user manual.

Due to our policy of continuous product improvement, we reserve the right to alter or change specifications without notice. Consequently, the product may be different from the information contained therein, but a modification will be undertaken without notice if it is recognized as an improvement of the preceding characteristic.

READ THE MANUAL CAREFULLY BEFORE USING THE MACHINE.

When ordering spare parts, please indicate the part number or code, you can find this in the spare parts list in this manual. Keep the purchase receipt; without it, the warranty is invalid. To help you with your product, we invite you to contact us by phone or via our website:

- **+33 (0)9.70.75.30.30**
- **<https://services.swap-europe.com/contact>**

You must create a "ticket" via the web platform.

- Register or create your account.
- Indicate the reference of the tool.
- Choose the subject of your request.
- Describe your problem.
- Attach these files: invoice or sales receipt, photo of the identification plate (serial number), photo of the part you need (for example: pins on the transformer plug which are broken).

11. PRODUCT FAILURE

WHAT TO DO IF MY MACHINE BREAKS DOWN?

If you bought your product in a store:

- a) Empty the fuel tank.
- b) Make sure that your machine is complete with all accessories supplied, and clean! If this is not the case, the repairer will refuse the machine.

Go to the store with the complete machine and with the receipt or invoice.

If you bought your product on a website:

- a) Empty the fuel tank.
- b) Make sure that your machine is complete with all accessories supplied, and clean! If this is not the case, the repairer will refuse the machine.
- c) Create a SWAP-Europe service ticket on the site: <https://services.swap-europe.com> When making the request on SWAP-Europe, you must attach the invoice and the photo of the nameplate (serial number).
- d) Contact the repair station to make sure it is available before dropping off the machine.

Go to the repair station with the complete machine packed, accompanied by the purchase invoice and the station support sheet downloadable after the service request is completed on the SWAP-Europe site

For machines with engine failure from manufacturers BRIGGS & STRATTON, HONDA and RATO, please refer to the following instructions.

Repairs will be done by approved engine manufacturers of these manufacturers, see their site:

- <http://www.briggsandstratton.com/eu/fr>
- <http://www.honda-engines-eu.com/fr/service-network-page;jsessionid=5EE8456CF39CD572AA2AEEDFD290CDAE>
- <https://www.rato-europe.com/it/service-network>

Please keep your original packaging to allow for after-sales service returns or pack your machine with a similar cardboard box of the same dimensions.

For any question concerning our after-sales service you can make a request on our website <https://services.swap-europe.com>

Our hotline remains available at +33 (9) 70 75 30 30.

12. WARRANTY EXCLUSIONS

THE WARRANTY DOES NOT COVER:

- Start-up and setting up of the product.
- Damage resulting from normal wear and tear of the product.
- Damage resulting from improper use of the product.
- Damage resulting from assembly or start-up not in accordance with the user manual.
- Breakdowns related to carburetion beyond 90 days and fouling of carburetors.
- Periodic and standard maintenance events.
- Actions of modification and dismantling that directly void the warranty.
- Products whose original authentication marking (brand, serial number) has been degraded, altered or withdrawn.
- Replacement of consumables.
- The use of non-original parts.
- Breakage of parts following impacts or projections.
- Accessories breakdowns.
- Defects and their consequences linked to any external cause.
- Loss of components and loss due to insufficient screwing.
- Cutting components and any damage related to the loosening of parts.
- Overload or overheating.
- Poor power supply quality: faulty voltage, voltage error, etc.
- Damages resulting from the deprivation of enjoyment of the product during the time necessary for repairs and more generally the costs related to the immobilization of the product.
- The costs of a second opinion established by a third party following an estimate by a SWAP-Europe repair station
- The use of a product which would show a defect or a breakage which was not the subject of an immediate report and/or repair with the services of SWAP-Europe.
- Deterioration linked to transport and storage*.
- Launchers beyond 90 days.
- Oil, petrol, grease.
- Damages related to the use of non-compliant fuels or lubricants.

* In accordance with transport legislation, damage related to transport must be declared to carriers within 48 hours maximum after observation by registered letter with acknowledgement of receipt.

This document is a supplement to your notice, a non-exhaustive list.

Attention: all orders must be checked in the presence of the delivery person. In case of refusal by the delivery person, it you must simply refuse the delivery and notify your refusal.

Reminder: the reserves do not exclude the notification by registered letter with acknowledgement within 72 hours.

Information:

Thermal devices must be wintered each season (service available on the SWAP-Europe site). Batteries must be charged before being stored.
